Dirt is being thrown on a number of lines and the construction will be rapidly

Judge J. C. Biever, of this city, who is the attorney for the "Bes" line is considered a good authority as he has been closely watching the manouvers of the different roads very closely. To a cor-

"I fully believe that within the next few years, Oklahoma will see one of the greatest booms in relivoid building that any state in the union has ever seen There will be a perfect network of rati-roads in Oklahoma and it would be hard to estimate the benefit it will do the there will be any great railroad centers in the territory. Oklahema City seems city, to have the lead now, with the Santa Fe, Ho Frisco and Choctaw, but other towns will forge ahead too. Suid has many milronds for a new town and so has Blackwell. Wateren is getting the Chectaw, and the Rock island is runing a line from Enild to Amsdarko, and Port Sill. The Orient road, which is now in actual construche upbuilding of the territory.

The rallreads of Oklahoma will be butarranged than those of Hanne, and will be so that all points of the terri-tory can be easily reached. In fact, I believe that Kansus will be sutdone in the through with her building boom." ble, Lo "Golhrie will have more railroads and Lincoln
